

SHREEJI SECURE BLOWN

Premium Grade, Highest Load-Holding & Puncture, Best for Heavy Loads

SECURE BLOWN combines extraordinary load-holding force with exceptional puncture and tear resistance to create a film which excels in capturing and holding heavy B and unstable C loads. The film's aggressive cling package promotes the bonding of all layers and eliminates tailing. It performs well in cold environments and its low-gloss surface improves scanning capabilities. This blown film's containment advantage means 15% to 25% less film usage versus typical cast, broad application films. Achieve the load security you require with less film.

SECURE BLOWN—the containment solution for tough loads!

SHREEJI CLASSIC BLOWN
Applications Include:
Heavy Bagged Products
Brick and Block
Unstable "C" Loads
Magazines and Papers
Roofing Materials
Extra Heavy Loads
